Breakout Session
RFPD
How to incorporate successful Humanitarian Project Models into Recipient Country Health Systems

Take 6 Steps to Achieve an Impact with Large Scale Project

Panelist Prof Dr Robert Zinser
robert.zinser@t-online.de
1. What are urgent real **needs of the community**?

2. **Contact government** authorities and keep contact

3. **Innovative replicable pilot project** – Rotary can do

4. **Scaling up** is the challenge

5. **Aim for mandate** of MoH/FMoH

6. **Make an impact** with your project

**TO REACH HEALTH SYSTEM (Sustainability)**
1. What are urgent real needs of the community?

- Needs based Assessment

How can these be satisfied?

- Knowledge transfer
- Equipment Donations
- Cooperations

Integrate Clubs/Districts/RAGs - like RFPD

- Workforce / Consulting / Partner
2. Contact government authorities and keep them informed
   – Seek Sustainability by Integration into Countries Health System

3. Innovative & replicable Pilot Project – Rotary can do
   – Based on needs by the community
   – Develop innovative Impacts
   – Seek co-funding of Global Grants
Innovation: Quality Assurance in Obstetrics

Overall Goal
• Introduction of Quality Assurance in Obstetrics

Accomplished Goals
• Pilot Project (2008 – 2010)
  Reduction of Maternal Mortality Rate by 60 % in 10 Hospitals in Kano and Kaduna

• Two Scaling Ups (2012-2015 and 2013-2015)
  plus 10 hospitals in FCT Abuja and Ondo
  plus 5 hospitals in Enugu

New Project Contributing to Health System
• 2016 – 2018
  plus 40 hospitals in 8 States
4. **Scaling up is the challenge**

- Impacts and Goals based on Pilot
- Increase Coverage
- Use of lessons learned
- Keep government informed
How to Incorporate Successful Humanitarian Project Models Into Recipient Country Health Systems
States involved in Rotary ausschreiben projects
5. Aim for Mandate by MoH/FMoH

“The Federal Ministry of Health is assuring […] its willingness to collaborate with the Rotary International […] in QAO, Family Planning and the implementation of MPDSR guidelines […] within the Nigerian Health System.”

Professor Isaac F. Adewole FAS, FSPSP DSc (Hons) Honourable Minister of Health
6. Make an impact

Like new Rotary Project

„Supporting and accelerating the implementation of the Nigerian MPDSR (Maternal and Perinatal Death Surveillance and Response) guidelines with Quality Assurance in Obstetrics (QAO)“

Project Amount  USD 900,000 including co-funding by German government
Supposed to begin June 2016 – June 2018

Main Goals
● Reduce Maternal and Child Morbidity and Mortality
● Integration of QAO in MPDSR
● Inclusion of large co-funded Family Planning Project
